Two speeds of forgetting

Median curve for months 1 to 60 after death, and the three decay models fitted to it (least squares on the log scale)

```
Fit (AIC, lower is better)
  two-phase    -475
  power law    -416
  exponential  -335

Out of sample (fit 2016 to 2019,
predict 2020 to 2023, log RMSE)
  power law    0.058
  two-phase    0.059
  exponential  0.068

Two-phase model
  fast half-life 11 days
  slow half-life 6.9 months
  settles at 0.90
```
